K9s Updates

Beacon AHEPA – Hello, it is Beacon AHEPA here reporting from K9s For Warriors mega kennel. We have been working extra hard lately. I have been getting at all the commands. My favorite of course is lap. As you can see I love practicing that one. Good thing for what I am told, the warriors seem to really like this one too. I went to the mall and it was awesome to be able to get so many treats, primarily because I did everything I was told. Currently we are working on me getting a little more focused. When we go out I like to look at a lot of the stuff, so my trainer keep helping focus a little more. So far so good and we are going to keep on training to get better. I can't wait to send you another exciting update about my progress. Have a good day.

Delphi AHEPA: Hi, it is Delphi back with more updates. I got to ride on the monorails in downtown Jacksonville! It was exciting for me to experience that. Once we reached the end of the line, we got off and headed into the public library and worked on skills. It was quite busy, and people tried to get my attention, but I stayed focused on my trainer all the time. The place had some art stuff among the aisles of books. I couldn't read any of it, but it sounds like people have a lot of imagination writing about imaginary stuff, from what my trainer told me. After the

visit downtown, we made a regular visit to the Avenues mall for work on my skills. We went back to the campus, and I got work a little more and some of the things I was struggling with during my trip downtown. Well thank you so much for your support and I will update you soon on my progress.

Ricey AHEPA

Hi, I am so excited to meet you! Thank you so much for my new name, I love it! I also want to thank you for supporting me on my journey to becoming a service dog. I have been working hard to learn my service tasks. We are working now to be able to do each in a public setting! My handler has taught me so many of them and I particularly love the treats I get when I do them well. So far, I have visited a hospital, an arcade, multiple
